

## FREE Software Update for Ford® Keys Ford® Bypass ADS209 - Code D745344AD

June 2016

Advanced Diagnostics is pleased to announce the release of a free update for ADS209 software. The new update contains a 20 digit bypass for various Ford® vehicles which by-passes the vehicle security without the need to obtain a dealer code or NASTF login in the USA - although these options can still be used - if and when required.

### What does the software do?

ADS209 software programs keys for vehicles with bladed, proximity, and push button start systems. This software allows keys to be added or programmed from a lost key situation and has been designed to bypass the pincode automatically in the background, making it a seamless process when programming keys.

The remote fob programming is performed automatically as part of the procedure when using ADS209.

### What else will I need?

Pro Tester

US Patent Number 7,315,238 B2

Smart Dongle

ADS175 Software

**Contact your distributor to purchase ADS209 software now.**

#### OFFER DETAILS

Cable	ADC250 or ADC251
Dongle	Smart Dongle
Software Category	A
Other Software Required	ADS175
Smart Card	Yes, Smart Card or Smart Dongle

# APPLICATIONS

## Ford® ADS209 Update

### APPLICATION CHART

			
Ford® Fusion (Blade and Proximity) 2013 to 2016	ADC250 or ADC251	Smart Dongle	
Ford® Edge (Blade and Proximity) 2015 to 2016	ADC250 or ADC251	Smart Dongle	
Ford® Mustang (Proximity) 2015 to 2016	ADC250 or ADC251	Smart Dongle	
Ford® F150 (Blade and Proximity) 2015 to 2016	ADC250 or ADC251	Smart Dongle	

### APPLICATION CHART

			
Ford® Explorer (Blade and Proximity) 2016	ADC250 or ADC251	Smart Dongle	
Ford® Lincoln MKC (Blade and Proximity) 2015 to 2016	ADC250 or ADC251	Smart Dongle	
Ford® Lincoln MKX (Proximity) 2016	ADC250 or ADC251	Smart Dongle	
Ford® Lincoln MKZ (Blade and Proximity) 2015 to 2016	ADC250 or ADC251	Smart Dongle	

This software is highly effective but not 100% and the option to use the NASTF method if the bypass is not effective is still available. Currently, no other aftermarket tools provide 100% coverage.

**Important note:** To prevent damage to the Smart Dongle, ensure that the ignition is turned off when connecting the tester to the vehicle.

**Please visit the Advanced Diagnostics website to see the training video procedure.**
