

New Software Release

CHRYSLER® 2018 KEY PROGRAMMIG ADS2272

October 2018 - **Updated February 2019**

Advanced Diagnostics is pleased to announce the release of Chrysler® 2018 ADS2272 key programming software for 2018 Chrysler®, Dodge® and Jeep® vehicles.

What does the software do?

AADS2272 software allows proximity keys to be added, erased or programmed from a lost key situation and has been designed to bypass the pincode automatically in the background making it a seamless process when programming keys.

The connection to the vehicle is made using the ADC2011 cable, which connects to the STAR (CAN-C connector) located in various locations in the vehicle depending on the vehicle model.

Please see the application list below for vehicle coverage or on Info Quest.

Note: This software is available for Smart Pro only. No working key is required.

What else will I need?

Smart Pro / ADC2011

Is PINCODE Required?

PINCODE Reading

Cable Required

Is a working Key Required?

* Based on active testing in the field, some variation may occur, we cannot guarantee bypass success on ALL listed vehicles. 2019 models may still be in production by FCA and it's always possible they update or change their security which is beyond our control. Success has been at or near 100% on the vehicles shown here.
