

Key Programming Software Update BMW® 2011 ADS2263

October 2021

Advanced Diagnostics is pleased to announce an update to the application list of the ADS2263 key programming software to include many new BMW and Mini CAS 3 and CAS 3+ models.

What does the software do?

The ADS2263 software is designed to program aftermarket slot keys and remotes for BMW and Mini vehicles fitted with CAS 3 and CAS 3+ modules and push button start. The remote and transponder are programmed at the same time and the Smart Aerial is required during the procedure to program the key. A PIN Code or a working key are NOT required. Additional keys can be added without deleting existing keys.

Note: This software is available for Smart Pro only.

What else will I need?

Smart Pro

Smart Aerial

OFFER DETAILS

Cable	ADC2000B
Smart Aerial required	Yes
Software category	A
Other accessories required	No

* Based on active testing in the field, some variation may occur, we cannot guarantee success on ALL listed vehicles.
